

## International Conference

# “SHAPING THE FUTURE: DIGITAL ECONOMY AND RECENT TECHNOLOGY TRENDS”

23 April 2021 | Tirana, Albania

### Purpose of the Conference

The crisis of COVID-19 has uncovered the vulnerabilities of societies, individuals, businesses, and economies, demanding for a reshaping of how social, economic, and technological activities are organized. This crunch calls for reactions based on responsibility, solidarity, and co-operation. Given this background, Canadian Institute of Technology in co-operation with other universities and main actors is organizing an International Conference entitled: “**Shaping the Future: Digital Economy and Recent Technology Trends**”. This scientific event aims to welcome international partners in the field of economy and technology through their work to highlight and analyze the main challenges and trends in various fields of the COVID crisis.
