

# Improving REsearch capacities of Albanian higher education institutions in conservation and restoration of Cultural Heritage (REACH)

The general objective of the project is in supporting the modernization and exploitation of restoration sector in Albania through the enhancement of research capacities of the university system.

The project has two distinct interconnected general aims:

- a) Provide the Ministry of Education with a structural framework within which
- b) HEIs will develop research capacity and innovation.

In order to reach this goal, the following specific objectives have been set:

- drafting of ministerial guidelines as a framework to build a structural system of research and research training for cultural heritage
- enhancing research capacities of Albanian higher education Institutions in the field of conservation and restoration of Cultural Heritage,
- providing Universities with innovative and competitive research tools and methodologies in the field;
- establishing modern, integrated and interdisciplinary research and research training laboratories;
- transfer of research to teaching, through the development of innovative research training methods
