Enterprise Integration Training

**// Master students and
Bachelor graduates.**

If you are searching for a new career in your field:

This is the opportunity for you. We will help you become a great Integration developer at LHIND.

This course trains you in technologies such as:

- Java / SQL
- EMS / JMS
- Tibco BusinessWorks
- Docker / Kubernetes / Azure
- Jenkins / Gitlab Pipelines
- Git / SVN
- Microservice / SOA
- Apigee

Our academy will help you find a solution to learn basic programming skills and give you the opportunity to decide if integration development is something you really like.

Interested Already?

Apply now to be part of this training. Send your CV
to hr.tia@lhind.dlh.de until **10 Nov 20**
